

## ASSESSMENT OF THE ENVIRONMENTAL EFFECTS

### LIST OF TABLES AND FIGURES

#### Section 2: BACKGROUND

Figure 2.1	Historical New Zealand cement market volumes .....	2.2
Figure 2.2	Clinker manufacturing .....	2.8
Figure 2.3	Cement manufacturing .....	2.9

#### Section 3: DESCRIPTION OF THIS PROPOSAL

Table 3.1	The approximate dimensions of the main components of the plant .....	3.3
Table 3.2	Approximate staffing levels for the proposal .....	3.6
Table 3.3	Estimated external service requirements .....	3.7
Table 3.4	Proposed Weston cement plant water consumption .....	3.14
Table 3.5	Anticipated quantities of hazardous substances to be stored on the various sites .....	3.20
Table 3.6	Expected make up of the raw materials and fuel .....	3.23
Table 3.7	Expected material tonnages – Plant at capacity .....	3.24
Table 3.8	Distribution of loads by destination .....	3.38
Table 3.9	Distribution of cement over time from the plant at Weston .....	3.38
Table 3.10	Preliminary estimate of plant construction workforce .....	3.43
Figure 3.1	Preliminary plant site construction programme .....	3.41
Figure 3.2	Preliminary Weston quarries construction programme .....	3.41
Figure 3.3	Preliminary Ngapara and Windsor pits construction programme .....	3.42
Figure 3.4	Estimated workforce requirements during construction (Plant) ..	3.44

#### Section 4: DESCRIPTION OF THE EXISTING ENVIRONMENT

Table 4.1	Key landscape characteristics and features .....	4.9
Table 4.2	Population trends and characteristics .....	4.21
Table 4.3	Emission sources .....	4.31
Table 4.4	Traffic flows on the local road network .....	4.33
Figure 4.1	Cross-section of strata at Weston .....	4.3

**Section 5: ASSESSMENT OF ACTUAL OR POTENTIAL EFFECTS OF THE PROPOSAL ON THE ENVIRONMENT**

Table 5.1	Maximum predicted PM <sub>10</sub> and PM <sub>2.5</sub> ground level concentrations .....	5.7
Table 5.2	Maximum Predicted NO <sub>2</sub> ground level concentrations .....	5.7
Table 5.3	Maximum predicted SO <sub>2</sub> ground level concentrations .....	5.8
Table 5.4	Maximum predicted CO ground level concentrations .....	5.9
Table 5.5	Maximum Predicted VOC ground level concentrations .....	5.9
Table 5.6	Maximum predicted metal ground level concentrations .....	5.10
Table 5.7	Maximum predicted ground level concentrations of other compounds .....	5.11
Table 5.8	Borefield abstraction effects .....	5.15
Table 5.9	Model outputs (Weston Quarries) .....	5.35
Table 5.10	Model outputs (Ngapara) .....	5.53
Table 5.11	Analysis of specific Intersections .....	5.74

**Section 6: MITIGATION AND MONITORING**

Table 6.1	Compounds that are either continuously, or periodically monitored in the cement plant discharges .....	6.5
Table 6.2	Proposed additional ambient monitoring .....	6.6
Table 6.3	Proposed rehabilitation concepts .....	6.12
Table 6.4	Proposed water management monitoring .....	6.15

**Section 8: CONSULTATION**

Table 8.1	Summary of contacts from the 0800 number and e-mail address .....	8.9
-----------	-------------------------------------------------------------------	-----

**Section 9: STATUTORY CONSIDERATIONS**

Table 9.1	Air Plan Rules .....	9.5
Table 9.2	Water Plan Rules .....	9.7
Table 9.3	Plant site consent requirements (Waitaki District Plan) .....	9.10
Table 9.4	Weston Quarries consent requirements (Waitaki District Plan) ..	9.10
