

ASSESSMENT OF THE ENVIRONMENTAL EFFECTS

TABLE OF CONTENTS

Section 1: INTRODUCTION

1.1	Purpose of this Document.....	1.1
1.2	Project Vision	1.1
1.3	Brief Description of this Proposal	1.1
1.4	Consents Sought	1.3
1.5	Profile of Holcim	1.3

Section 2: BACKGROUND

2.1	What Led to this Project	2.1
2.2	Holcim’s Commitment to Sustainable Development	2.3
2.3	Holcim’s Emission Reduction Target	2.5
2.4	Description of the Cement Manufacturing Process	2.5

Section 3: DESCRIPTION OF THIS PROPOSAL

3.1	Overview of the Project	3.1
3.2	Weston Plant Site and General Activities	3.2
3.3	Raw Materials - General	3.21
3.4	Raw Material Requirements	3.23
3.5	Limestone/Siltstone/Tuff Quarries	3.24
3.6	Silica Sand Pit – Windsor	3.29
3.7	Lignite Coal Pit – Ngapara	3.30
3.8	Transport Links between Sites	3.35
3.9	Operational Traffic	3.39
3.10	Construction	3.40
3.11	Ancillary Construction Requirements	3.49

Section 4: DESCRIPTION OF THE EXISTING ENVIRONMENT

4.1	General	4.1
4.2	Location, Context and Topography	4.1
4.3	Geology	4.2
4.4	Climate	4.4
4.5	Groundwater/Surface Water	4.5
4.6	Landscape and Visibility	4.8
4.7	Ecology	4.12
4.8	Community/Social	4.16
4.9	Cultural	4.23
4.10	Rock Art and Maori Archaeology	4.26
4.11	Historic Archaeology	4.27
4.12	Air Quality	4.29
4.13	Traffic and the Transportation Network	4.31
4.14	Noise	4.34

Section 5: ASSESSMENT OF ACTUAL OR POTENTIAL EFFECTS OF THE PROPOSAL ON THE ENVIRONMENT

5.1	Overview	5.1
5.2	Benefits of the Proposal	5.2
5.3	Weston (Plant Site)	5.6
5.4	Weston Quarries (limestone/siltstone/tuff)	5.30
5.5	Ngapara (coal)	5.49
5.6	Windsor (sand)	5.63
5.7	Transport Interconnections	5.72
5.8	Construction Effects across all Sites	5.82
5.9	Effects Arising from the Project as a whole	5.90

Section 6: MITIGATION AND MONITORING

6.1	Introduction	6.1
6.2	Mitigation Of Effects Through the Project Design Itself	6.3
6.3	Air	6.4
6.4	Traffic/Transport	6.6
6.5	Noise	6.7
6.6	Landscape	6.9
6.7	Geological/Quarrying/Slope Stability	6.13
6.8	Hazardous Substances	6.13
6.9	Water Management	6.14
6.10	Terrestrial Ecology	6.16
6.11	Aquatic Ecology	6.16
6.12	Social/Community	6.17
6.13	Cultural/Archaeology/Heritage	6.19

Section 7: CONSIDERATION OF ALTERNATIVES

7.1	Product Alternatives	7.1
7.2	Cement Supply Alternatives	7.1
7.3	New Zealand Cement Manufacturing Alternatives	7.2
7.4	Cement Supply alternatives being Considered by Holcim	7.3
7.5	The Advantages of Weston as a Cement Manufacturing location	7.4
7.6	Alternatives considered for the Weston Project	7.4

Section 8: CONSULTATION

8.1	General	8.1
8.2	Approach	8.1
8.3	Project Introduction	8.1
8.4	Identification of Issues and Release of Technical Information ..	8.5
8.5	Stakeholder Consultation	8.11

Section 9: STATUTORY CONSIDERATIONS

9.1	General	9.1
9.2	The Resource Management Act	9.1
9.3	Otago Regional Policy Statement	9.3
9.4	Otago Regional Land Transport Strategy	9.4
9.5	Otago Regional Plan – Air	9.4
9.6	Otago Regional Plan – Water	9.6
9.7	Otago Regional Plan – Waste	9.8
9.8	Waitaki District Plan	9.8
9.9	Kai Tahu ki Otago: National Resource Management Plan	9.11
9.10	Fresh Water Policy – Te Runanga o Ngai Tahu	9.12
9.11	Reinstatement of the branch rail line	9.12
9.12	Archaeological Authorities	9.13

APPENDICES

Volume 2

Appendix 1	General Site Location Map
Appendix 2	Site Location Map for Weston site showing plant, limestone quarry, tuff quarry (medium scale)
Appendix 3	Site Layout Plan for Weston plant site (smaller scale)
Appendix 4	Site Location Map for Ngapara, coal pit (medium scale)
Appendix 5	Site Location Map for Windsor, sand pit (medium scale)
Appendix 6	Assessment of Noise Effects Report
Appendix 7	Transport Assessment Report
Appendix 8	Landscape and Visual Amenity Assessment

Volume 3

Appendix 9	Ecology - Assessment of Effects Report
Appendix 10	Social and Community Effects Report
Appendix 11	Cultural Impact Assessment for a Proposed Cement Plant and Associated Quarries near Oamaru
Appendix 12	Assessment of Historic Archaeological Values at Weston, Windsor and Ngapara Sites
Appendix 13	Potential Impacts of the Holcim Cement Works Proposal on the Rock Art and Archaeological Values in the Te Ana Raki, Windsor and Ngapara Areas Report

Volume 4

Appendix 14	Assessment of Effects of the Air Discharges from a Cement Manufacturing Plant and Associated Activities in Weston, Ngapara and Windsor Report
Appendix 15	Water Management Strategy for Holcim (New Zealand) Ltd., Proposed Cement Plant Development Report
Appendix 16	Geological Modelling and Quarry Planning Report
Appendix 17	Preliminary Slope Stability Assessment
Appendix 18	The Economic Impacts of the Possible Weston Cement Plant
